**CALIFORNIA MUTCD UPDATE WORKSHOP (TE-06)**  
**COURSE OUTLINE****Learning Objective**

Attendees will gain practical skills on how to use and apply the MUTCD and the California MUTCD to their traffic engineering work, with emphasis on application areas that often pose difficulties for practitioners, including: all-way stops; speed zoning; traffic signal operations; school area traffic controls; and where California practice differs significantly from Federal practice. Attendees will learn good practices and lessons learned in applying the MUTCD and California Supplement to both new and existing transportation facilities in California. Attendees are encouraged to bring issues/experience at work for discussion at the workshop.

**Section One**

- Introductions
- Document Approach
- Signs, General

9:20-9:30 BREAK

**Section Two**

- Regulatory Signs

10:40-10:50 BREAK

**Section Three**

- Warning Signs

12:00-1:00 LUNCH

**Section Four**

- Traffic Signals

2:20-2:30 BREAK

**Section Five**

- Markings
- School Area Traffic Issues

3:40-3:50 BREAK

**Section Six**

- Recent and Pending Changes
- Experimentation
- Wrap-up
- Course Evaluation
